PROFESSIONAL SUMMARY

Creative and detail-oriented Frontend Developer, UI/UX Designer, and Graphic Designer with experience in responsive web development, packaging design, print production, and branding solutions. Skilled in React.js, JavaScript (ES6+), HTML5, CSS3, UI/UX workflows, and Adobe Creative Suite. Experienced in designing scalable user interfaces, creating print-ready artwork, developing packaging dielines, manual imposition for books and manuals, and preparing production files for embossing, debossing, foil stamping, and offset printing. Strong understanding of design systems, branding, responsive design, and production workflows with the ability to bridge digital and print design effectively.

WORK EXPERIENCE

Graphic Designer & Print Production Designer

Golden Dreams Packaging Services LLC, Ajman, UAE | Feb 2026 – May 2026

- Designed packaging artwork, marketing materials, and print-ready graphics for commercial and branding projects.
- Created accurate dielines for boxes, product packaging labels, and custom print layouts using Adobe Illustrator.
- Performed manual imposition for books, manuals, brochures, catalogs, and booklet printing workflows.
- Prepared production-ready artwork for offset and digital printing with proper bleed, crop marks, and color settings.
- Worked on embossing, debossing, foil stamping, and block foiling designs for premium packaging and branding applications.
- Designed business cards, brochures, flyers, stickers, posters, labels, and promotional materials.
- Coordinated with printing and production teams to ensure accurate print execution and finishing quality.
- Developed packaging designs aligned with branding, typography, and production specifications.
- Ensured print accuracy, layout consistency, and high-quality visual presentation across projects.

UI/UX Designer (Freelance)

Opentutor Design Institute, Kannur | May 2025 – Jan 2026

- Led UI/UX design for mobile apps, e-commerce platforms, and landing pages.
- Conducted user research, competitor analysis, persona creation, and user journey mapping to define product strategies.
- Designed high-fidelity prototypes and responsive layouts using Figma, ensuring consistency through scalable design systems.
- Collaborated with developers to translate UI/UX designs into responsive frontend interfaces.
- Improved user flow clarity and reduced usability friction through iterative testing and feedback.
- Enhanced usability and engagement through structured design improvements across multiple projects.
- Contributed to brand identity systems including logos, visual guidelines, and marketing creatives.

Operations Executive

Maxco-NRI Innovative Property Management (Remote) | Mar 2023 – May 2025

- Improved operational workflow efficiency by approximately 40% through structured digital documentation systems.
- Streamlined reporting workflows, reducing manual coordination time, and improving team efficiency.
- Organized and maintained data systems to improve internal process clarity and productivity.
- Coordinated with suppliers and subcontractors to obtain competitive pricing and negotiate cost-effective contracts.
- Coordinated communication across remote stakeholders and cross-functional teams.

PROJECTS

Packaging & Print Design Projects

- Designed packaging solutions, labels, business cards, brochures, and branding materials for multiple clients.
- Created dielines and production-ready files for commercial printing and packaging workflows.

Bus Hunt – Booking Application

- Optimized booking flow, reducing user steps by 25%, and improving overall usability.
- Designed user journey and wireframes to streamline booking experience.

Terrapod (E-commerce Platform)

- Redesigned checkout UX to enhance clarity and reduce drop-off points.
- Improved user experience through structured UI hierarchy and design consistency.

Student Dashboard (SaaS Platform)

- Improved layout hierarchy, increased data readability, and user interaction efficiency.
- Designed scalable UI components aligned with design system principles.

Nidra (Wellness App)

- Designed onboarding experience to improve user engagement and retention flow.
- Created intuitive UI for better navigation and usability.

Blog Platform (React Application)

- Developed responsive frontend using React.js, HTML5, and CSS3.
- Integrated REST APIs to dynamically render content.
- Deployed application on modern hosting platforms.

Orvento (Event Landing Page)

- Built responsive UI using modern front-end technologies.
- Ensured cross-browser compatibility and mobile responsiveness.

Weather Forecast Web App

- Developed responsive web interface with API-based data integration.
- Implemented dynamic UI updates using JavaScript.

Boutique Landing Page

- Designed and developed responsive UI with a focus on visual hierarchy and branding.

TECHNICAL SKILLS

Graphic Design & Print Production: Packaging Design, Dieline Creation, Print Production, Manual Imposition, Prepress, Offset Printing, Embossing, Debossing, Foil Stamping, Block Foiling, Print-Ready Artwork, Typography, Branding Materials, Layout Design.

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, Tailwind CSS, Bootstrap.

UI/UX Design: User Research, Wireframing, Prototyping, Usability Testing, Information Architecture, Interaction Design, Design Systems.

Tools & Technologies: Git, GitHub, REST API Integration, VS Code.

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Sketch, Miro.

Workflow: Agile, Scrum, Sprint Planning, Cross-functional Collaboration, Team Coordination, Problem Solving.

Additional Skills: Cross-Browser Compatibility, Web Performance Optimization, Accessibility (Basic), Collaboration

EDUCATION

Bachelor of Technology (B-Tech) - Computer Science Engineering

APJ Abdul Kalam Technological University | 2018 - 2022

Full Stack Web Development (Frontend Focus)

Tap Academy | 2022 - 2023.

Integrated Design Course (UI/UX, Web & Graphic Design)

Opentutor Design Institute, Kannur | 2025 - 2026.

LANGUAGES

- English, Hindi, Malayalam

CERTIFICATIONS

- Full Stack Web Development - Tap Academy
- Android Application Development - KwickKlab Infotech
- Integrated Design Course - Opentutor Design School

ADDITIONAL STRENGTHS

- Strong understanding of print production workflows and packaging standards.
- Experience handling both digital and print design projects.
- Ability to work collaboratively with developers, production teams, and clients.
- Knowledge of responsive design principles and modern front-end technologies.
- Strong attention to typography, layout, branding, and visual consistency.
